RE: SOURCE OF PRODUCED WATER FOR DISPOSAL

SCANNED

Dear Bob,

Enclosed are the hard copies of FORM 26 since I am not able to file electronically. I apologize for the inconvenience this causes for you and your staff. As soon as I am given the access I will be filing electronically going forward. I greatly appreciate your understanding.

Per our conversation about the water analysis, Valkyrie Operating is currently working on that, so we meet the November 30th deadline as well. Once that is completed, do I send those results to this same address for the FORM 26?

Please let me know if you have any questions about the information I filled out. I hope that I have done it correctly and appreciate all your help through this process.

Have a great rest of your week!

Sincerely,

Amy Richards
