17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent data, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all measures and zones pertinent to this work.)

Date of work May 1, 1977

Well was spudded on 4/26/77. After setting surface casing, well was drilled to Total Depth of 5255' and electric logs run. Two drill Stem Tests were run to evaluate shows in both the "D" and "J" Sands. Results were negative, so well was plugged and abandoned as follows:

20 sack cement plug from 85' to 125'
10 sack cement plug from surface to 30'
Hole was filled w/heavy mud.
