(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

18. Date of work July 9th, 1984

* Must be accompanied by a cement verification report.

Well was spudded on July 5th, 1984. After setting surface casing, well was drilled to a Total Depth of 5177 feet and electric logs run. One (1) Drill Stem Test was run from 5026' to 5036'. Since no significant shows of oil and/or gas were found, well was Plugged and Abandoned as follows:

20 sack cement plug from 130' to 170'
10 sack cement plug from surface to 30 feet.

Hole was filled with heavy mud and steel cap was welded on casing as ordered by the Commission Representative on July 9th, 1984.

19. I hereby certify that the foregoing is true and correct
