CORRECTIVE ACTIONS:

1 ☒ CA# 131030

Corrective Action: Comply with Rule 1004.a. Corrective action date is being back-dated to when all final reclamation work should have been completed.

Date: 01/18/2019

Response: CA COMPLETED

Date of Completion: 11/26/2019

Operator Comment: SRC completed final reclamation for the well head, production facility, and access road to the well head 11/26/2019. SRC removed all existing road base, recontoured, added topsoil for proper elevations, deep ripped, disked, and left the ground ready for the land owner to plant crops. Well head, road and production facility are in irrigated farm ground so proper grading was achieved to ensure drainage of irrigation. The well head, production facility, and road are in its first growing season. SRC will continue to monitor the location for growth and will submit a final form 4 once comparative growth has been achieved. Attached is documentation of the reclamation procedure.

COGCC Decision: Approved pending re-inspection

COGCC Representative: COGCC acknowledges SRC's intent to pursue a variance. Be aware that a submission for a variance request does not guarantee approval; corrective action(s) and action date(s) would remain applicable until resolved if request is denied.

Note: Operator made a typo. I believe SRC was trying to say 11/26/2018 in the first sentence.
