Logan County, Co

Dear Mr. Bicknell:

In response to your letter of April 17, 1990 I have enclosed a copy of the completion report daily log showing a cast iron bridge plug at 5200'. As far as we know it has not been removed.

The files we received when we purchased these wells are not complete. This is the best information we could find. If you have more questions, please let us know.

Sincerely,

A handwritten signature in blue ink that reads "Diana Smith".
