Date of work June 30, 1979

Well was spudded on June 27, 1979. After setting surface casing, well was drilled to total depth of 4953' and electric logs run. Since no significant show of oil and/or gas were encountered, the well was plugged and abandoned as follows:

20 sack cement plug from 110' to 140'  
10 sack cement plug from surface to 30'

Hole was filled with heavy mud.
