SUNDRY NOTICES AND REPORTS ON WELLS

INSTRUCTIONS

Notice must be given to the Director, and approval obtained in advance of the time when the owner or operator expects to recomplate or abandon a well or to change plans. Within thirty (30) days after recompletion, change of plans, or remedial work, a detailed report of the work done and the results obtained shall be submitted on this form in duplicate for wells on Patented and Federal lands, and in triplicate for wells on State lands. In work that affects only rods, pumps or tubing or other routine work such as, but not limited to, cleaning out to previous total depth, no report is necessary.

LEASE NAME RIEKE WELL NO. G-2

FIELD Cedar Creek, North WILDCAT COUNTY Logan

LOCATION NE, SE, Section 2 Township 9 N Range 54 W Meridian 6PM
(Quarter Quarter)

1980 feet from South Section Line and 720 feet from East Section Line
N or S E or W

(DETAILS OF WORK)

This well completed as a "D" Sand oil well in April 1955. Production declined rapidly until a sand-oil frac job was performed which restored production for a time but a steady decline of 11% per month resulted in 100% water production by December 1959 at which time it was temporarily abandoned. Later the "J" sand was tested for gas production but the flow was not high enough to be considered commercial. Since there is no other prospective pay zone it is proposed to plug and abandon by shooting off and salvaging all possible casing, set a cement bridge above perforations, fill hole with heavy mud with cement plugs in both bottom and top of surface casing, clean up, level and abandon location.
