Re: Colorado Oil and Gas Lease No. 68/4567-U
#1 Cloverleaf-State Well, NWN 34-8N-52W, Logan County

Dear Mr. Monahan:

O We have a notice from the Oil and Gas Conservation Commission of your proposed location in the NWN of 34-8N-52W on State minerals, the surface of which is owned by the City of Sterling.

P We received a copy of an agreement between you and the City of Sterling, dated October 22, 1968, whereby you agree to take certain precautions to protect the City's water wells and also agree to a pre-determined amount for surface damage and yearly rental on the surface should you be fortunate enough to complete a producing well. Inasmuch as this agreement indicates a complete understanding between you and the surface owner, we are waiving the bond requirements under this lease and will assume no responsibility to the surface owner.

Y According to the agreement, the City of Sterling and the Oil & Gas Conservation Commission will see that proper precautions are taken in the drilling and the plugging of the well.

Very truly yours,

STATE BOARD OF LAND COMMISSIONERS
