Spence,

I would still like to hear a bit about the ACE permitting etc but do not need a to see any formal data. Possibly you could provide a brief update when we meet to talk about field development.

Regards,

Margaret

One other note/question...I see you removed the question about ACE filings, etc....I take it you don't want to see our ACE data/info, correct?

If you do, how would you like me to get that to you? I ask that because I have 179MB of data, surveys, wetland delineations, etc that we have worked with ACE and that large of data can't be emailed.

If you don't need it then I won't worry about getting it to you.

Thanks again!

Thank you for sending me the updated compliance tracker and I'll be looking for the other tracker from Conor.

As a bit of an update on one of the items, me and my regulatory team have had a really productive call with Sabrina today and we are rolling on what she is needing.

Thank you and have a good day.

Spence,

I have attached the updated draft compliance program. The dates have been modified as with a few of the compliance topics. However, I hope the success and momentum generated out of the July 26, 2019 meeting continues. One issue that should be addressed fairly quickly is scheduling a meeting to discuss the field development plans. Also, I will have Conor Pesicka provide a copy of the corrective action spreadsheet to you so SandRidge can start tracking and addressing field inspection report issues.

Please contact me with any questions.

Regards,

Margaret

Margaret,

Thank you for meeting with Sandridge Friday, we truly appreciate you and COGCC's continued patients and assistance. I believe Friday was very beneficial for several at Sandridge to meet and hear from COGCC staff.

We met with our CEO this morning at 8 am to begin/continue our actions forward.

I look forward to your follow up email with the updated compliance program schedule so that I can distribute to the Sandridge team.

Best regards,

**Spence A. Laird – EHS&R Manager**
