CAUSE NO. 381 & 407
DOCKET NO. 1303-UP-71

NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On June 27, 1983, the Commission entered Order No. 381-1 which, among other things, established 80-acre drilling and spacing units for the production of oil and associated hydrocarbons from the Codell Formation underlying certain lands in the Bracewell Field. Section 36, Township 6 North, Range 66 West, 6th P.M. is subject to this Order for the Codell Formation.

On June 18, 1984, the Commission entered Order No. 381-2 which, among other things, established 80-acre drilling and spacing units for the production of oil and associated hydrocarbons from the Niobrara Formation. By Order No. 381-2, the Niobrara Formation was included in the spaced area of the Bracewell Field as provided for in Order No. 381-1. Section 36, Township 6 North, Range 66 West, 6th P.M. is subject to this Order for the Niobrara Formation.

On June 18, 1984, the Commission entered Order No. 381-3 which, among other things, permitted multiple completion of wells in the Codell and Niobrara Formations, and where there is no difference in ownership between formations, to commingle production from the formations in the wellbore for existing wells and wells to be drilled. Section 36, Township 6 North, Range 66 West, 6th P.M. is subject to this Order for the Codell and Niobrara Formations.

On February 18, 1985, the Commission entered Order No. 381-5 which, among other things, approved an optional additional well on each established 80-acre drilling and spacing unit in the undrilled 40-acre tract, for the production of oil and associated hydrocarbons from the Codell and Niobrara Formations. The additional well would be subject to the Order Nos. 381-1, 381-2, and 381-3. Section 36, Township 6 North, Range 66 West, 6th P.M. is subject to this Order for the Codell and Niobrara Formations.

On December 19, 1983, the Commission issued Order No. 407-1 (amended March 29, 2000) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell Formation, with the unit to be designated by the operator drilling the first well in the quarter section. The permitted well shall be located in the center of either 40-acre tract within the unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit. Section 31, Township 6 North, Range 65 West, 6th P.M. is subject to this Order for the Codell Formation.

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations, with the permitted well locations in accordance with the provisions of Order No. 407-1. Section 31, Township 6 North, Range 65 West, 6th P.M. is subject to this Order for the Codell and Niobrara Formations.

On April 27, 1988, the Commission adopted Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Section 36, Township 6 North, Range 66 West, 6th P.M. and Section 31, Township 6 North, Range 65 West, 6th P.M. are subject to this Rule for the Codell and Niobrara Formations.
