<p>COGCC Inspection Report Summary On Tuesday 1/14/2020 at approximately 1245 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection at a Kerr McGee location:</p> <p style="text-align: center;">Vogl 5-8A at API #05-123-19870 in Weld County Colorado.</p> <p>While there, I observed a shut in wellsite. Report shows it as SI since 2/1/2019. During this inspection the following compliance issues were observed: 907.e Housekeeping: Stained soil around bradenhead. CA date 1/29/2020 see attached photo 3. 605.d Mechanical issue: WH valve appears to have a small leak. CA date 1/29/2020 See attached photo 4 and video. At 1245 hrs I spoke with Shannon at the Kerr McGee office and explained the valve on the WH appears to have a leak and should be addressed ASAP, I was told they would notify the lease operator to have it tightened or replaced to solve issue. Location is dry, weather is clear. A follow up on this site inspection needs to be conducted to ensure the Compliance issues have been corrected to comply with COGCC rules. Continuing education COGCC Inspection Report Summary. This is a summary of inspection report.</p>	revasr	01/14/2020
