TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____

Comment

2018 inspection indicates jointed goatgrass on location. As an annual species, jointed goatgrass was not identified during this inspection but could remain. Operator should evaluate jointed goatgrass in spring 2020 and control if needed. Small grasses observed on the well pad cut-slope need to be monitored. Additional stabilization measures may be needed if erosion is observed.
