COMMENTS:

Per previous discussions with Alex Fischer, Caerus and TEP (Parties) have extended the Temporary Surface Water Pipeline ROW agreement, initially effective summer of 2019 and submitted with the previous water share request. This agreement is recorded and the Parties respectfully request approval of the attached and below summarized water plan. The plan itself, the recorded agreement extension and a copy of the water analysis are attached to this submission. This agreement is beneficial to all parties involved, along with the residents of the State of Colorado in that it promotes beneficial reuse of an otherwise waste stream. TEP will have less water to dispose of and Caerus will need to access less fresh surface water. The Parties request that the water share plan be in effect until December 31st 2020.

Custody of the produced water will transfer at the Starkey Production Pit 14-28-696 (CE&P Facility ID 454686, Pit ID 414554) located in Sec 28, T6S-R96W (the "Custody Transfer Point"). The lat/long for the Custody Transfer Point is approximately: 39°29'19.4" N, 108°07'13.3" W. Caerus will assume regulatory responsibility upon entry of the water into pump that Caerus will operate on the Starkey Production Pit Site. Water, drawn from the pit, will be transferred, by a combination of both surface and buried pipelines, to the North Parachute Ranch EP Waste Mgmt Facility (i.e. Middlefork) (I.D. #120803). Produced water will be transferred from Middlefork (I.D. 120803), located in Lot 13 and 14 of Section 30, Township 5S, Range 95W of the 6th P.M., via Caerus pipelines to completions operations at the following locations:

- o A24 (I.D. #458475) located in NWNW and Lot 4 of Section 24, Township 4S, Range 96W of the 6th P.M.
- o E34 (I.D. #335928) located in SWNW of Section 34, Township 4S, Range 96W of the 6th P.M.
- o L27 (I.D. #335939) located in NWSW of Section 27, Township 4S, Range 96W of the 6th P.M.
- o O04 (I.D. #414231) located in Lot 9 of Section 4, Township 6S, Range 96W of the 6th P.M.
- o J14 (I.D. #467272) located in NESW of Section 14, Township 4S, Range 96W of the 6th P.M.

En route to locations, water may make a stop at the Divide Road Water Treatment Facility (ID #432214).

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____
