RE: UGC Midstream Ltd, LLC

Red Rock Gathering Company, LLC, a subsidiary of Summit Midstream Partners, LP, has assigned all the assets of the Red Rock West gathering system to UGC Midstream Ltd, LLC, a subsidiary of Utah Gas Corp, effective December 1, 2019.

The combination of Utah Gas Corp's Dragon Trail plant and associated gathering with the Red Rock West system creates a single midstream enterprise capable of optimizing production across the region. Our combined system will have over 1,600 miles of gathering pipelines, more than a dozen compressor stations, and two active gas processing plants serving over 50 customers. Our facilities produce residue gas, propane, condensate and NGLs shipped in both trucks and the MAPL pipeline. In addition, we also have injection and processing capacity for inbound trucked y-grade which we are actively purchasing from third parties.

For commercial inquiries, please feel free to contact me at [amm@utahgascorp.com](mailto:amm@utahgascorp.com). For questions regarding accounts, please contact Megan Yoachum at [myoachum@utahgascorp.com](mailto:myoachum@utahgascorp.com).

I would like to personally welcome the customers and vendors of Red Rock Gathering and Summit Midstream to Utah Gas Corp. We look forward to working together in the future!

Regards,
