**General Comment:**

On 1/28/2020, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection at CHEVRON USA INC # 16700's UNION PACIFIC 150,151,152,153 Location in Rio Blanco County, Colorado.

It was documented that there are areas of the production area that do not appear reasonably needed for production activities; Soil stockpiles on the NE/SE ends of the Location do not appear to be protected; "As drilled" location information incorrect for well API 103-11501; gravel pile stored on west end of the Location; barrier in disrepair on the west end of the Location.

The following alleged compliance issues were observed during this inspection:

1003.b  
1002.c  
603.f  
308A.b.(2)F

Refer to the "Location", "Related facility" and "Reclamation" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Location**Overall Good: ☐

1002c. PROTECTION OF SOILS \_\_\_\_\_ Fail \_\_\_\_\_

Comment \_\_\_\_\_

It was observed in this inspection that the exposed soil stockpile slopes on the northeast and southeast ends of the location appear bare and not stabilized.

Corrective Action \_\_\_\_\_

Comply with Rule 1002.c; install BMPs to protect from wind and water erosion, and to prevent weed establishment.

Comment It was observed in this inspection that there are areas beyond the anchors on the northwest, north and east ends of the Location that do not appear to be reasonably needed for production activities. See photos 3-6, and 9 in the attached photo document.

Corrective Action Comply with Rule 1003.b; Conduct reclamation on areas of the Location not reasonably needed for production activities. Additionally, If it is determined that if vegetative establishment on the current interim areas is not progressing towards Rule 1003.e.(2) standards, then Operator is directed to conduct additional reclamation on these areas as needed. Ensure erosion and stabilization BMPs are implemented to stabilize the reclamation areas, and remaining production area, pursuant to rule 1002.f.
