Following is a (notice of intention to do work) June 25, 19 53
 (~~report of work done~~) (patented) described as follows:

Colorado State Weld County Wildcat Field

2 (Well No.) Long (Lease) NW $\frac{1}{4}$ Sec. 24 (Sec. and $\frac{1}{4}$ Sec.) 12 N (Twp.) 56 W (Range) 6th P.M. (Meridian)

The well is located 330 ft. (N) of S line and 330 ft. (E) of W line
 (E) (W)
 of NW $\frac{1}{4}$ Sec. 24-12N-56W (C SW SW NW)
 ground

The elevation above sea level is 4901 ft.

Details of Plan of Work: (State names of and expected depths to objective sands:
 Show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement-
 ing points, and all other important proposed work.)

1. We propose to drill a well at the above location; said well to be drilled to and into the basal section of the "J" sand of the Dakota series expected to be encountered at an approximate depth of 6,200 feet, unless commercial production is encountered above the foregoing objective.
2. We will set, at an approximate depth of 550 feet, 10-3/4", 29# Armco slipjoint, range 3, surface casing and cement solid.
3. In the event commercial production is found, we will run 5 1/2" production casing to the top or through the producing horizon and cement the production casing with a minimum of 200 sx.
4. Attached is copy of Powers Elevation Company's plat showing exact location and ground elevation. As soon as the rig is on location, elevation of the Kelly Boring will be furnished your office. — 4910'
5. All work will be done in conformance with the Rules and Regulations approved by the Oil and Gas Conservation Commission of the State of Colorado and effective January 9, 1952. Timely reports will be submitted to the State Oil Inspector.

Approved: JUN 26 1953
