Denver, Colorado 80206

*Adams*

Dear Mr. Pavlat:

As I advised you on the phone this morning, Mr. Q. R. Grenfell notified us that your company was to plug and abandon the No. 1 B. L. Morris well, located NE $\frac{1}{4}$ SE $\frac{1}{4}$ , Sec. 14, T-6N, R-86W, Routt County, Colorado.

As I am sure you are aware, Mr. Grenfell remains responsible for the plugging of this well and for submission of all necessary forms until a change of operator is approved, and a bond is posted by the new operator.

Since no approval has been given by this office for the plugging, I hope the well has not been plugged as yet, and you are advised that approval of this office should be received before the well is plugged.

Mr. Grenfell had previously advised that a stray sand, 1300 - 1350 feet, had been encountered, with good porosity and some oil sand. This fact should be considered when making up your plugging program.

I shall anticipate hearing from you at an early date as to when you hope to plug the well.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

William R. Smith, Deputy Director
