November 29, 1960

Return Receipt Requested

Mr. Robert S. Hawkins  
Box 778  
Craig, Colorado

Dear Mr. Hawkins:

I wrote you on October 26, 1960 regarding the Mason #1 cement well in Sec. 13, T.6N., R.86W. and as yet have had no reply.

Yesterday I happened to meet with one of Ancora's men who informed me that they had approved your request to plug the well provided you met requirements of the State.

Due to the fact that you did not answer my letter I thought I had better contact you to remind you that your plan of abandonment must be submitted to this office and approved before the well is plugged. In addition a subsequent report of plugging must be filed. I call your attention to rule 305 and 307 on page 11, of our Rules and Regulations a copy of which is enclosed. I should also like to call your attention to section 100-6-21 page 71 which sets out penalties for violation of Commission rules.

No completion report (Form 5) has been submitted on this well and it will be necessary that it and logs be submitted so that the notice of Intention to Abandon can be approved.

We have enclosed forms for your use and if we can be of any assistance please contact us.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

---

William R. Smith, Senior Petroleum Engineer
