CHANGE OF USE/ USE EXISTING WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT

CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of the permit does not assure the applicant that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction and Pump Installation Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 17.
- 3) Approved pursuant to CRS 37-92-602(3)(b)(i).
- 4) Approved for the watering of livestock on a ranch, and the irrigation of not more than one (1) acre of home lawns and gardens. This well is known as the J & J No. 1 Well.
- 5) Permit 39375-F (canceled, May 21, 1992), was issued on July 23, 1991, for a change of use for this existing well. This well was originally constructed in August and September of 1990, for coal-bed methane gas production. The total depth of this well is 3910 feet below ground surface, with a perforated interval in the Williams Fork Formation at 3560 feet to 3586 feet below ground surface.
- 6) The maximum pumping rate shall not exceed 15 GPM.
- 7) The average annual amount of ground water to be appropriated shall not exceed 1.5 acre-feet.
- 8) This well shall be located not more than 200 feet from the location specified on this permit.
