General Comment:

On 2/20/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Revegetation needs to be conducted within the interim reclamation area by 4/17/2020. Stormwater and erosion controls are needed on bare soils until stabilized with desirable perennial vegetation.

See below, and attached photos for additional detail.

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____

Comment Little desirable vegetation established within the interim reclamation areas. Vegetation present is largely annual weeds such as cheatgrass and mustard spp.

Corrective Action Revegetation needs to be conducted in portions of the project area where little to no desirable vegetation is present. Weeds need to be managed to encourage establishment of desirable vegetation and prevent debris.
