Comment: There are areas along the access road and at the Big pit area that does not have adequate vegetation establishment. There are erosion issues along the former access road that needs to be repaired and reclaimed. An operator work update was submitted on 11/19/2019. It is uncertain if all work was performed as outlined in the submitted document. Additional reclamation should be performed before the upcoming spring growing season. See attached photos

There was signs of vehicle entry along the former access road. It is recommended to consult with SLB and install a cross fence to prevent entry and damage to reclamation.	CostaR	02/28/2020
