Comment: Well API#045-11929 is in rectangular cellar, open with no cover.

Corrective Action: Install cellar cover to maximize safety and wildlife welfare. If holes remain that would allow wildlife ingress, install means of Wildlife egress, or fill in cellar if practical.

Comment: Location appears well maintained; perennial vegetation in Interim Reclamation areas is very well established and appears diverse. Well Pad which sits above equipment pad appears oversized for the Six PR Wells on site and should be assessed in Spring as to need for reduction of site footprint.
