**General Comment:**

This is an Interim Reclamation & Stormwater focused Inspection of a Fed/Fed Location. Any Corrective Actions from previous Inspections that have not been addressed are still applicable. Location was Amended/Expanded in 2018 to Drill additional Wells.

Site has a F4, Approving Request to utilize Location for remote frac operations for Wells on Loc#457469. Terra anticipated completion operations to begin in June, 2019; ending in October 2019. Interim reclamation of Well Pad (Loc#335434) would occur within twelve (12) months of completion of remote frac operations. Wells at Loc#457469 have not yet been drilled, further delaying due date for installation of Interim Reclamation at this Location.

1003a. Waste and Debris removed? **Fail**

Comment **There are areas of senesced old growth Debris weeds (majority Russian thistle), at stage to break and tumble on slopes, in BMPs. Non noxious weeds are considered debris/waste once they have died and dried up. When these or any other vegetative material that could blow offsite or into equipment areas are dead they are considered debris. There are a few pieces of plastic debris on site. Refer to Photo Log attached.**
