General Comment:

On 4/6/2020, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Berry Petroleum Company LLC's Chevron D05 696 location in Garfield County, Colorado.

It was observed that Location appears to be progressing towards final reclamation requirements; fence is in disrepair; Noxious weeds observed.

The following alleged compliance issues were observed during this inspection:
1004.e

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Sundry doc. #401382573 indicated reclamation activities were conducted on the pad Fall of 2017. At least two growing seasons have passed and vegetation appears to be progressing towards final reclamation standards. It was also observed that straw mulch appears to have been over-applied in areas of the Location and may be hindering vegetative establishment. Remnants of noxious weeds (*Verbascum Thapsus*, *Carduus nutans*) from the 2019 growing season are evident on the Location.

Corrective Action:

Comply with Rule 1004.e and conduct noxious weed management and monitoring to prevent further noxious weed establishment. Management efforts will need to be ongoing until final reclamation has passed. Initial management activities need to be conducted prior to seed head maturity, but no later than 8/1/2020

Date **08/01/2020**
