<p>COGCC Inspection Report Summary On Monday 4/20/2020 at approximately 13:20 hrs. I, Inspector Tom Peterson, conducted an on-site inspection at the PDC Energy Camenisch Supreme Camp L02 Tank Battery, location #447213 in Weld County Colorado. While there, I observed that the meter calibration cards were not current, and the crude oil tanks and produced water vaults containment berms were not constructed of steel. During this inspection the following possible compliance issues were observed: Rule 329. with a corrective action date of 7/21/2020, Rule 603.h.(2)C. with a corrective action date of 7/21/2020. A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.</p>	petersont	04/20/2020
