

Well Name: Jaquez 3 **API #** 067-06274
Well Name: Jaquez 7F **API #** 067-08767
Inspection Number: 693901099 & 693901371

Corrective Action: Additional stabilization and revegetation measures need to be installed to stabilize the well pad cut-slope and berms. Erosion controls such as erosion blankets should be applied and maintained until vegetation is established

Action Completed: 4/14/2020

Action Taken: Removed weds, maintain BPM's and erosion control measures, seeded cut slope, spread and tacked down straw mulch.
