Comment: This location does not comply with Rule 1004. Operator attempted final reclamation activities with the evidence of drill rows; however, there is little establishment desirable plant species. The well location consists mostly of weedy, annual vegetation (cheatgrass). There has potential been 3 years of growing seasons and no establishment of desirable species.

Corrective Action:

Date **11/15/2020**

Inspector Name: Binschus, Chris

Comply with Rule 1004. Revegetation activities shall be complete no later than 11/15/20 or as soon as environmental conditions will permit.

Overall Final Reclamation

Fail

Well Release on Active Location ☐

Multi-Well Location ☐

COGCC Comments

Comment	User	Date
Note: it appears adjacent reference areas have been continuously grazed without adequate recovery opportunities. Operator should consider temporarily fencing off reclamation areas to allow the establishment of perennial species.	binschusc	05/04/2020
