Comment: This location does not comply with Rule 1004. Operator attempted final reclamation activities with the evidence of drill rows; however, there is little establishment desirable plant species. The well location consists mostly of weedy, annual vegetation (cheatgrass and flixweed). There has potential been 3 years of growing seasons and only minimal establishment of desirable species.

Inspector Name: Binschus, Chris

Corrective Action:	Comply with Rule 1004. Revegetation activities shall be complete no later than 11/15/20 or as soon as environmental conditions will permit.	Date	11/15/2020
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>

COGCC Comments

Comment	User	Date
Note: it appears adjacent reference areas have been continuously grazed without adequate recovery opportunities. Operator should consider temporarily fencing off reclamation areas to allow the establishment of perennial species.	binschusc	05/04/2020
