Response: CA COMPLETED

Date of Completion: 04/24/2006

Operator Comment: XTO Energy submitted Sundry Notice Form 4 Vacuum on 04-21-2006. The COGCC PE II approved the list of wells submitted for Apache Canyon and New Elk wells that would operate under a vacuum. Attached is the Form 4 that was approved by the COGCC on 06/08/2006. This corrective action is reoccurring for this well. FIR Document # 688401791 corrective action required Timber Creek to provide documentation that the COGCC approved use of a vacuum pump. As a courtesy Timber Creek was able to produce the documents from the previous operator and submitted those to the COGCC. FIRR Document # 402032022 resolved the corrective actions and FIR document 693501455 approved the corrective actions including the vacuum document in 2019. Timber Creek will provide the 2006 document as an attachment to this resolution form in order to better locate this historical document.

COGCC Decision: Approved via an AMI

COGCC Representative: CA IS INVALID THIS WELL HAS A MULTI WELL FORM 4 APPROVAL TO BE PRODUCED ON A VACUUM.
