Comment: There is an erosion channel along the access road that has eroded the water bar berm that needs to be repaired. The rock rip/rap placed at the drainage crossing has been displaced and needs to be repaired for long term erosion control. BMP's must be implemented in accordance with good engineering practice and must be maintained until final reclamation is achieved.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C

**Pits:**  NO SURFACE INDICATION OF PIT
