COGCC INSPECTION SUMMARY:

FIR Document Number: 692401234
Inspection Date: 07/31/2019 FIR Submit Date: 09/24/2019 FIR Status: _____

Inspected Operator Information:

Company Name: BAYSWATER EXPLORATION & PRODUCTION LLC Company Number: 10261
Address: 730 17TH ST STE 500
City: DENVER State: CO Zip: 80202

LOCATION - Location ID: 315766

Location Name: EMERALD-62N103W Number: 26NENE County: RIO BLANCO
Qtrqr: NENE Sec: 26 Twp: 2N Range: 103W Meridian: 6
Latitude: 40.119900 Longitude: -108.917380

FACILITY - API Number: 05-103-00 Facility ID: 231523

Facility Name: EMERALD Number: 284
Qtrqr: NENE Sec: 26 Twp: 2N Range: 103W Meridian: 6
Latitude: 40.119900 Longitude: -108.917380

CORRECTIVE ACTIIONS:

1 CA# 130998

Corrective Action: Control Noxious Weeds. Evalute sucess of desirable vegetation; re-seeding as indicated by vegetation assessment. Operator should consult with County Weed manager as to most effective control and timing for Halogeton control.

Date: 05/31/2020

Response: CA COMPLETED Date of Completion: 05/26/2020

Operator Comment: Prior to implementing corrective actions the Rio Blanco County Weed Control Supervisor was contacted to develop suitable strategies to address the management of noxious and undesirable species (primarily Halogeton and Cheat Grass).

Following consultation with the county weed control supervisor, actions completed include harrowing the area to remove noxious weeds prior to them going into seed this season, installing a nutrient rich compost amendment to

promote desirable growth, and broadcast seeding a mix consistent with the regional vegetative species.

Additionally, a sterile barley was selected as an additive seed to the mix. The sterile barley was utilized because of its tendency to germinate quickly and crowd out noxious weeds prior to them propagating, which will allow additional time for the desirable species to germinate and spread. All actions were agreeable and/or recommended by the weed control supervisor.

COGCC Decision: _____

COGCC
Representative:

--

OPERATOR COMMENT AND SUBMITTAL

Comment: The location will continue to be monitored for desirable growth. A final reclamation completion notice will be filed via Form 4 once the site has achieved 80% of pre-disturbance growth and is free of noxious weeds.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
