Date of Completion: 06/13/2020

Operator Comment: This CA is not yet completed. Form needs a response in order to submit; this form is being submitted for a factual review request of CA #2.

COGCC Decision: **Not Approved**

COGCC Decision "Not Approved".

COGCC
Representative:

Operator response of "Corrective Action Complete" is a notification to the State that the corrective action has been addressed in its entirety. Based on operator comments corrective action does not appear to have been completed.

COGCC can not accept "Corrective Action Completed" for future dates.

2  CA# 139401

Corrective Action: Comply with 1003 Rules and conduct interim reclamation on areas not need for production, and areas disturbed, including but not limited to recontouring/regrading, compaction alleviation, replacement of soils, etc...and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Ensure erosion controls are implemented to stabilize the seeded soils and slopes, and continue to monitor and manage this site until site has received a passing final inspection.

Date: 07/15/2020

Response: FACTUAL REVIEW REQUEST

Basis for Review: Requested documentation was submitted prior to the inspection

Operator Comment: On 05/01/2018, SG submitted a 502b variance request for Delayed Interim Reclamation at this location, see attached Document 401624470. After submittal, documented phone and email discussions on July 2, 2018 and July 23, 2018 with COGCC staff resulted in no bond or surface waiver needed due to federal surface and minerals. The USFS has no issues with the reclamation status of the location. COGCC Staff requested to withdraw the Form 4.
In addition, please note the inspection report states that the date of first production was 10/28/17, and IR was required by 4/28/17. IR is not required prior to first date of production.

COGCC Decision: Approved pending re-inspection

COGCC
Representative:

COGCC Decision "Approve Pending Re-Inspection" factual review request.

COGCC submitted this inspection due to no valid permits existing on this Location; COGCC discussed with United States Forest Service ("USFS") whether they still support the variance remaining in place, even though no valid permits exist.

Documentation attached includes a 2018 Surface Owner letter with an agreement supporting delayed interim operations NTE 5 years (2023). However this variance request was withdrawn due to COGCC being unable to hold a bond for Fed Surface. For documentation and recording purposes, COGCC does need a 502.b variance to be re-submitted by SG Interests.

Submit variance request; the information attached to this FIRR will be sufficient for the COGCC to approve the request. Please submit the request by the end of June, 2020.
