General Comment:

On 6/3/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Weeds need to be controlled by 7/4/2020. Multiple treatments will be needed to control infestation. Revegetation in these areas after weeds are controlled.

See below, and attached photos for additional detail.

1003 f. Weeds Noxious weeds? _____ F _____

Comment Dense Russian knapweeds and musk thistles observed within the northeastern and eastern project area, largely at the bottom of the fill slopes.

Corrective Action Control weeds. This is the second corrective action for weeds within the project area. Multiple treatments will likely be needed, and infestation needs to be decreasing significantly over time to indicate an appropriate response to the corrective action. Revegetation in these areas after weeds are controlled.
