General Comment:

On 6/05/2020, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection at TEP Rocky Mountain's Naugle 66S95w /25NENE location in Garfield County, Colorado.

This inspection is a follow-up to inspection #696201236, and in response to Resolution Form #402408217 regarding the following corrective actions:

603.f: Removal of equipment not needed for the lease by 5/20/2020
1003: Interim reclamation of areas not needed for production by 7/31/2020

Operator's response within the resolution was that the equipment and disturbed areas on the west end of the Location are not the Operator's. COGCC's response to the resolution was that it is "unclear that the area observed on the west end of the Location was constructed independently from the Location, and not a result of O&G disturbance". Operator was directed within the resolution to provide a Surface Owner Letter.

See Resolution #402408217 for additional information. See the "Reclamation" section of this inspection.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

Comment

Inspection #696201236 observed areas on the west end of the Location that appeared to be associated O&G disturbance of the Location. Inspection required Operator to comply with Rule 1003.b.

Operator submitted FIRR #402408217 stating areas belonged to the SO and are not under Operator's management. COGCC response in the Resolution stated that a SO letter will need to be provided attached to a Form 4 Sundry, and the CA will remain applicable until the documentation as been provided and sundry approved.

This inspection is to provide an update to the Corrective actions to reflect the resolution.

Corrective Action

Provide a Surface Owner letter identifying that the area appearing to be O&G disturbance was not built by an O&G Operator in association with the Naugle-66S95W25NENE Location; that the area has not been or currently utilized for O&G activities, and is under his or her management and responsibility.

CA directing Operator to comply with Rule 1003.b remains applicable until documentation has been provided and sundry approved, or reclamation conducted.

Date **07/31/2020**
