Type of Spill: _____

Estimated Spill Volume: _____

Comment: Remediation Project #13096 is active. Form 27 Initial (Doc.# 401989247) had a proposed plan to remove a partially buried produced water vessel with a removal start date of 4/1/2019. Based on Google Earth aerial imagery taken 9/12/2019, the produced water vessel remained at location. At the time of this inspection, the northern equipment, including a produced water vessel, has been removed. It is unclear when the northern equipment was removed.

Corrective Action: Operator shall submit a Form 27 Supplemental no later than 7/8/2020. Please contact Kari Oakman with any questions.

Comment: This inspection confirms that three wells have been plugged (123-24979, 24980 and 24977) while two wells remain in TA status; therefore, this will be a well release for the three PA wells.

The two wells that remain in TA status are plug and abandonments in process. PA operations not completed due to sustained pressure. Per the conditions of approval for TA status, the approval is good for one year and a new application must be made before May 27, 2021.
