Submit reports of site investigation and progress of remediation including results of sampling and analysis at a minimum on a quarterly basis until soil impacts are defined or removed and remediated and groundwater impacts are defined with adequate points of compliance for groundwater impacts in place. All activities between July 2019 and the end of May 2020 must be provided.

Update must include date(s) certain by which next steps of investigation will be performed if soil impacts are still in place and/or adequate points of compliance with respect to groundwater impacts have not been developed by installation of monitoring points and sampling and analysis of groundwater that indicate the extent of groundwater impacts have been defined.
