On June 5, 2020 COGCC SW EPS Jim Hughes conducted an environmental field inspection of the BP Spill/Release Point ID #476772, which originated on the Huber Morrison A #1 location. Please refer to document #402412416 for more information regarding this release. During this inspection and area was fenced off with orange safety fencing. A 2' by 2' hole was observed within the fencing. Staining, originating from the fenced area, was observed leading into an irrigation channel which, at the time of this inspection, contained flowing water. The channel ultimately terminated in an adjacent field which was being actively irrigated.	hughesjo	06/05/2020
