Off-Location Flowline

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610

Operator Information

OGCC Operator Number: 8960 Contact Person: Fred Kayser
Company Name: BONANZA CREEK ENERGY OPERATING COMPANY Phone: (303) 3356904
LLC
Address: 410 17TH STREET SUITE #1400 Email: fkayser@bonanzacrk.com
City: DENVER State: CO Zip: 80202
Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes ☒ No ☐

OFF LOCATION FLOWLINE

FLOWLINE ENDPOINT LOCATION IDENTIFICATION

Location ID: 418320 Location Type: Production Facilities
Name: North Platte Sec 34 Number: Tank Battery
County: WELD

OFF LOCATION FLOWLINE Pre-Abandonment Notice

Date: 05/18/2020

Pre-Abandonment 30-day Notice☐ Removed per Rule 1105.d.(2)☒ Abandoned In Place per Rule 1105.d.(2) Exceptions - select all that apply:

- ☐ A. A surface owner agreement executed by a surface owner allows abandonment in place.
- ☐ B. The line is subject to the jurisdiction of the federal government, and the relevant federal agency directs abandonment in place.
- ☒ C. The flowline or crude oil transfer line is co-located with other active pipelines or utilities or is in a recorded right of way.
- ☐ D. Removal of the line would cause significant damage to natural resources, including wildlife resources, topsoil, or vegetation.
- ☐ E. The flowline or crude oil transfer line is in a restricted surface occupancy area or sensitive wildlife habitat.
- ☐ F. The flowline or crude oil transfer line or a segment of the line crosses or is within 30 feet of a public road, railroad, bike path, public right of way, utility corridor, or active utility or pipeline crossing.
- ☐ G. The flowline or crude oil transfer line or a segment of the line crosses or is within 30 feet of or from under a river, stream, lake, pond, reservoir, wetlands, watercourse, waterway, or spring.
- ☐ H. The operator demonstrates and quantifies that the removal of the flowline will cause significant emissions of air pollutants.

☐ Abandoned In Place per Rule 1105.d.(3)**Description of Pre-Abandonment Notice:**

The reason for abandoning the associated flow lines in place, rather than complete removal, is due to the fact that this flow line co mingles with other flowlines in a pipeline corridor. Excavating through this pipeline corridor to remove this one flow lines increases both health and safety as well as environmental risk. To avoid potentially impacting the flow line integrity of active flowlines in this pipeline corridor, Bonanza recommends abandoning the flow line in place. In the case of the North Platte 31-34 flow line, this line also crosses the main access road and irrigation ditch through 70 Ranch property and we would like to avoid a temporary closure and impacting this right of way.

Bonanza will conduct flowline abandonment in place per rule 1105e., which include evacuating the flow lines of any hydrocarbons, water, and pressure, cutting off the flow line risers to at least 3' below grade, and capping/sealing off the ends of flow lines.
