Corrective Action: Dense Russian knapweeds and musk thistles observed within the northeastern and eastern project area, largely at the bottom of the fill slopes.
Control weeds. This is the second corrective action for weeds within the project area. Multiple treatments will likely be needed, and infestation needs to be decreasing significantly over time to indicate an appropriate response to the corrective action. Revegetation in these areas after weeds are controlled.

Correction Action Due: 7/4/2020

Action Completed: 6/10/2020

Action Taken: Applied chemical treatment to control Russian Knap Weed and Musk Thistle
