1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% 14

TRANSECT RESULTS OF REFERENCE AREA% 44

TOTAL % OF DESIRABLE VEGETATION COVER 32

VEGETATIVE COVER FAIL

Comment:

Records show well PA2015. Transects were conducted indicating vegetation is not 80% of the surrounding reference area. Though reclamation appears to be progressing additional revegetation activities may be needed for site to achieve COGCC 1004 standards.

Continue to monitor and manage the Location and conduct additional reclamation work as needed. Continue to perform stormwater and weed management until site has received a passing final inspection.

Once Location meets COGCC reclamation requirements, submit a Form 4 "Final Reclamation Complete", and a final inspection will be scheduled.
