Photo 1. View of the project area from the southeastern corner facing center.

Photo 2. View of the northern fill slope from the northeastern corner facing westward.

Photo 3. View of partially treated Canada thistles within the northern project area. Thistles on the edge of the rocks are herbicide treated (yellow), while those in the center (green) are not treated. Approximately 150 observed.

Photo 4. View of Russian knapweeds blooming within the northern project area. Approximately 200 individuals observed throughout the project area.

Photo 5. View of the reference area, comprised of pinyon juniper woodland with sagebrush, blue grama, and penstemon in the understory.
