Comment:

Corrective Action:	Operator has performed recent final reclamation activities with the evidence of fresh mulch and germination of some desirable plant species. However, annual weedy vegetation (lamb's quarter, Kochia and Setaria sp. (foxtail)) and some noxious weeds (Canada thistle and puncturevine) were observed. Canada thistle was observed at the early bud growth stage.	Date 07/10/2020
	Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management. Operator may have to perform additional reclamation activities this Fall if desirable establishment is not achieved.	
	Operator has failed to re-install a portion of fence along the tank battery entrance.	
	Comply with Rule 1004.e. to control and manage all noxious weeds by July 10, 2020.	
	Collaborate with the surface owner to re-install fencing along the entrance of the tank battery as soon as practicable.	
Overall Final Reclamation Fail Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
