Comment: There is erosion occurring along the side of the access road, near the cattle guard, and culvert outlet. There is a long stretch of road that does not have sufficient BMP's which is contributing to the volume of stormwater directed to the culvert. The sediment trap at the northwest side of the location is filled in with sediment.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C

Date: 07/31/2020
