---

Jeff,

Verbal for cement coverage on the SG 23-22 pad wells as we discussed.

Regards,

**Subject:** Re: SG 23-22 Pad Cement Coverage Requirement

Lynn,

I approve the cement coverage COA of 200 ft. above the Mesaverde or Ohio Creek if present for the SG 23-22 pad.

Good luck with the knee surgery.

Regards,

Aaron Katz

Hello Craig, and Aaron,

Per our phone discussion TEP requests a waiver for the cement coverage required per the COA noted in all State ADP's in the GM field West of Parachute that states we bring cement to 200 ft above the Lower Wasatch for all wells on the SG 23-22 pad.

Generally in the GM field all COA's require cement coverage to 200 ft above Mesaverde or (Ohio Creek if present). TEP is requesting to follow this requirement for all wells on the SG 23-22 pad. Please reply with your verbal approval for this waiver at your convenience. Thanks.

Regards,
