<p><b>COGCC Inspection Report Summary</b>                      On Thursday 7/23/2020 at approximately 09:00 hours, I, Inspector Tom Peterson, conducted an on-site inspection at the Anadarko Ruby O 15-15 location #332165 in Weld County, Colorado.                      While there, I observed that the gas sales line from the separator to the gas sales meter had been disconnected and the gas sales meter had been removed. The well is now in a TA status and requires a MIT to be performed. During this inspection the following possible compliance issues were observed: Rule 326. and Rule 208. with a corrective action date of 10/26/2020.                      A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.                      This is a summary of the inspection report.</p>	petersont	07/23/2020
