Comment: COGCC inspection to verify pit closure. Pit was backfilled, graded and seeded. Pit ID 439484 status is "CL" and Remediation #13230 has been resolved. Recent storms have caused stormwater to carry sediment down access road into reclaimed pit location smothering new growth. Stormwater controls are required to prevent erosion and inhibition of reclamation.

Corrective Action Restore stormwater controls to prevent erosion of access road and deposition of sediment onto undisturbed rangeland or onto pit reclamation area.

Date: 08/18/2020
