217446	WELL	PR	10/01/1996	GW	071-06223	APACHE CANYON 20-1	RI

**General Comment:**

This is a stormwater management inspection.  
See attached photos and additional details within this report.

**Reclamation - Storm Water - Pit****Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
		Culverts	Fail			

Comment: There has been significant recent precipitation events that caused erosion along the main road. There are multiple culverts that have filled in with sediment which must be cleaned out and maintained. The next storm event could cause additional erosion and degradation of the road if BMP's aren't maintained. Maintaining BMP's will reduce erosion and additional issues. There was a backhoe operating along the road pushing mud and debris so maintenance appears to be under way. Ongoing maintenance needs to occur field wide.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C

Date: 08/25/2020

Pits: ☐ NO SURFACE INDICATION OF PIT
