Tracey,

Thank you for using the COGCC Online Tool to file your complaint.  
Your information has been entered into document number 200449139.

I have reviewed the location described in your complaint and it is a midstream compressor station, which is not within the jurisdiction of COGCC. The Public Utilities Commission has jurisdiction over safety at this facility, but they do not have rules regarding noise. As such, your local government would likely be the entity with regulatory authority over noise.

COGCC staff did not identify any violations of COGCC rules that would lead to the issuance of a notice of alleged violation (NOAV) related to your complaint. Accordingly, the COGCC has closed your complaint.

Regards,  
Megan Adamczyk

<b>Type of Complaint (Click all that apply)</b>	Noise
<b>Detailed description of the issue or issues.</b>	<p>I received an email from the compressor station company that they are going to be running the machinery, with NO noise protection or mitigation for us, starting August 17th, and will last for four or five days. They DO NOT have a "sound wall" installed yet.</p> <p>Noise is described as noise you hear and feel, continuous, Rumbling/big engines, began on 8/17/2020.</p> <p>They've run the compressors/ machinery in the past for "testing" and it kept us up most of the night. It's incredibly loud, and they have NO sound mitigation presently installed.</p>
