**General Comment:**

On 8/11/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Remove and properly dispose of wood debris by 8/28/2020.

-Stormwater controls need to be installed to stabilize erosion within the project area by 9/12/2020. Wattles are not sufficient BMPs in eroding areas.

See below, and attached photos for additional detail.

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Wattles in the southern project area are full of sediment and no longer functioning. Wattles were installed to address corrective action identified during a 2018 inspection. However wattles do not appear to be adequate BMPs in these areas.

Corrective Action: Stormwater controls need to be installed to stabilize erosion within the project area.

Date: 09/12/2020

**Pits:** ☒ NO SURFACE INDICATION OF PIT
