General Comment:

This is a Final Reclamation Inspection for PA Well API#103-09507; Completed 11/1/1991; Plugged and Abandoned 4/18/2001 by Texaco Exploration. Insp#669300043 Dated 8/7/2012 Failed this Location for Final Reclamation. Conditions at site since previous Insp have not changed except that Radio Tower has been installed off location at West end of site, now necessitating an access road through Location to reach the facility. From aeriels, it appears that the Tower was installed between 2015-2017.
